Rama Abdlrahman

Computer Engineering student | programmer | Front-end developer
السلطة الفلسطينية

موجز

I am a Computer Engineering Student at Birzeit University, In my
fourth year.

Modules studied till now during my degree include object-
oriented programming, Digital Systems, Circuits and Signals,
Microprocessors, operating systems, Data Structures and Database.

• I have high communication skills, self-confidence, and Always
looking to learn new skills.
I am currently seeking to develop my skills in my specialty, so I'm
taking a lot of courses now, machine learning, front-end developing
and back-end developing, project management , and I plan to
become a mid-fill-stack engineer within two years. I love to connect
with new people and build new relationships, so feel free to send me
a message.
